# FOES PREDICT A LANDSLIDE AGAINST TIGER

## Men and Women Keyed for Test.

### PRIMARY ELECTION FACTS

#### ELECTION WEATHER.

Increasing cloudiness in Chicago and vicinity today; showers by night; continued storm.

Polls open at 8 a. m. and close at 5 p. m.

All registered voters, MEN AND WOMEN Alike, may vote for ALL offices named on the ballot.

The issue—“No Tammany in Illinois.”

All persons are qualified voters who registered in October, 1918, or at any time between then and now and who have not moved since the registration.

All persons also are qualified voters who have moved since registering in 1918 and have since registered in the precincts in which they now reside.

Illinois appears all set to whirl the Tammany tiger around its head by the tail at today's primaries.

A total of nearly 1,000,000 votes is expected to be cast in the state, the largest poll in the history of Illinois primaries.

From every district all sides last night reported that the men and women electors are keyed up for the fight. Today the great drive will be to get the voters to the polls and reduce the “stay-at-homes” to a minimum.

In Chicago the election board estimates that 500,000 votes will be cast in the city and Cicero.

See Tiger Hit by Landslide.

The anti-Tammany forces on the eve of the election looked for a landslide in their favor. Downstate they predicted the rout of the tiger ticket by overwhelming majorities from Zion to Cairo. State Senator Clarence Dickstein sticks to his estimate of 100,000 plurality for the Oglesby-McKinley ticket outside Cook county. Homer K. Gallup, on the basis of a house-to-house canvass, says anti-Tammany will carry Chicago by 20,000.

The Lundin-Thompson-Tammany manager, too, expresses confidence. For public consumption they claim Cook county by 60,000 to 75,000 and downstate by 40,000, but privately they see these figures in half and then knock off a discount of 10 per cent.

Cepter Fight on Two “Key” Offices.

Yesterday the tiger gave more evidences that it regards itself in desperate straits.

In Chicago it centered its activities on the two county offices which it was eager to capture in its plans for extension of machine control. These are the county judgeship, which controls the election machinery of Chicago, and the state's attorneyship, which controls the machinery of criminal prosecution. Judge Bernard F. Barasas, as an independent, is leading great gashes into the city hall following the in the black belt and the Italian halfparks, cutting down the strength of Judge Robert E. Crowe, the city hall candidate. This has served to increase the strength of Judge David F. Matchett, the anti-tiger candidate, who is reported to have a tremendous support in the residence districts from Hyde Park to Lake View and Englewood to Ravenswood, especially among the women voters.

Fall “Marked Ballot” Dodge.

The hall, fighting with its back to the wall, has pulled all the old tricks. Yesterday it spread spurious “marked ballots” with anti-Tammany headings on which parts of the ticket were scratched. It was pulled too early, however, to have effect, for Edward J. Brundage and Charles S. Densen, on behalf of the committeemen, sent out special delivery letters exposing the city hall propaganda.

“The attempt of the city hall,” it read, “is always to play one former faction against the other. The hall believes if our workers stand solidly for the straight ticket, that ticket will be nominated from top to bottom. It is trying to effect this by creating suspicion that there is not concerted action.”

“The city hall propaganda ought not to alarm you or the candidates. Our purpose in writing you is to let you

know it is intended to drive a wedge between the harmony forces, and is Luntin's handiwork. Please request your workers to stand steadfast. See that the word is passed to the precinct captains."

"Kidnap" City Hall foe. Meridian methods continued. The hall kept up its kidnapping tactics. Last night the chief victim was Samuel Heiler, 6 former Bull Moose who is in charge of the anti-tiger forces in the Twentieth ward. The anti made arrangements for a judge to be on hand all night and today for habeas corpus proceedings.

The rumour over the presence of deputy sheriffs at the polling places on request of the County court to guard voters, ballot boxes, and election officers, was set down by the anti-tiger forces as city hall propaganda with a view of scaring women voters from the polls, especially in the west side wards. It roused women leaders in both Republican and Democratic camps, who sent out warnings that a blind man could see through the ruse, pointing out that no women need be alarmed, as plenty of protection will be on hand at the polling places.

Look for Big Vote by Women. A great women's vote is looked for. Ratification of the suffrage amendment by Connecticut, the thirty-seventh state to ratify, this down the adoption of the amendment regardless of the outcome of the controversy over Tennessee, the thirty-sixth state. It comes before the Illinois primaries, which removes any vestige of doubt as to the full legality of women voting on all Illinois issues today.

Full precautions to keep the Democrats at home in their own primaries today have been taken. Last spring it is estimated fully 25,000 Democrats voted in the G. O. P. primaries for the Thompson ward committee. The law under which this primary was held having been declared invalid by the Supreme court, the majority primary of February, 1913, is now the guide line for the voting. The poll lists of that primary have been sent to every precinct, and no one who voted the Democratic ball at that time will vote in the Republican primary today if the challengers and judges do their duty. Full watch is to be kept by the election board with a view to subsequent prosecutions.

Experts estimate that not more than 2,000 Democrats will. The squeeze past the party fence and vote for Tammany candidates. Besides, the Hoynes-league fight will tend to keep the Democrats in their own party.

Mayor Pulls "Sob Stuff." All leading candidates and managers gave out final statements last night. They did not vary materially from Sunday's estimates.

But among the eleven of our utterances was one of significance. Mayor Thompson at a meeting in Woodlawn temple Monday night pulled out the tremolo stop and remarked: "Some day I'll meet my Waterloo, and when I do I'll go out with clear conscience."

Some of the insiders in the city hall camp itself have dropped word it looks like a Tammany Waterloo on at least four of the big places on the county state, and that of the anti-tiger state, Matchett for state's attorney, Edwin A. Olson for county judge, Joseph F. Haas for recorder, and John Kjelander for superior court clerk look like certain winners.

**Boston Women More Loyal as Voters than Boston Men**  
Boston, Mass., Sept. 14.—Women, with their new right of suffrage, voted in larger numbers proportionately than the men in this city at the state primaries last Tuesday. It was announced today that 58,659 men, 48.7 per cent of those who registered, and 15,855 women, 49.5 per cent of the registrants of their sex, went to the polls here.

## EVERYBODY WILL WIN, ACCORDING TO RIVAL CLAIMS

All G. O. P. Leaders Are "Sure" of Victory.

Night before primary statements made by candidates and their spokesmen in all camps are 100 per cent optimistic. According to the forecasts, nobody is going to be a loser when the returns come in tonight. Following are the final declarations of leaders in the Republican state and county campaigns:

BY JOHN G. OGLESBY.  
(Anti-Tammany Candidate for the Republican Nomination for Governor.)

We are approaching an important hour in the welfare of our state. Likewise, we are approaching a period when the voters will decide whether the long standing traditions of the Republican party can be shaken in this state of its birth. Even as the hour is about to strike, the eyes of the nation are watching this primary contest, for it means too much to the Republican party to be provincial.

Convinced, as I am, that the citizens of Illinois will support my earnest intent to preserve good government, and will stand by the tradition of the Republican party, I close the campaign confident of victory.

BY LEN SMALL.  
(Tammany Candidate for Republican Nomination for Governor.)

My concluding appeal to the Republicans of Illinois is to remember that this is a contest between the people and the utility barons. I have announced in every public utterance that my candidacy stands for the repeal of the state public utilities act and for local home rule. Mr. Oglesby has announced that he will maintain the public utilities commission.

BY WILLIAM B. MCKINLEY.  
(Republican Candidate for United States Senator.)

Reports I have from every section of the state give me the utmost confidence as to the results at the polls today. There is no doubt in my mind the entire ticket with which I am associated will win by a very substantial majority.

BY COL. JOHN C. AMES.  
(Chairman Frank L. Smith Campaign Committee.)

Illinois papers will carry the headlines Thursday morning, "Frank L. Smith wins." The figures that follow, showing his plurality, will be well over 135,000—more than 50,000 downstate, and above 75,000 in Chicago.

Final reports are in from every county in the state. These show there isn't a doubt anywhere of Smith's victory.

BY MAYOR WILLIAM HALE THOMPSON.  
I have not engaged in this contest for personal political aggrandizement, but solely because of what I regard as my duty to the people of Chicago who have honored me. This is a critical time and a crucial contest for our people. Therefore of predatory wealth are making a supreme effort to bring our city, county, state and national governments under the control and domination of organized wealth and greed so they may exploit and rob the masses without hindrance from public officials.

I believe that the intelligent citizenship of our city is alive to the momentous issues of this campaign, and I await with confidence the expression of their will at the polls.

## A Primary Burden Bearer

Mrs. Lillian Koretz, a precinct board member, carrying the ballots and supplies she will need today from election commissioners' offices.

Women voters who will act as burden bearers, but such incidents were rare. The women burden carriers were more numerous yesterday than ever before. In former years men have eagerly sought places as judges and clerks of election. Now wages are so high that they scorn the \$7 a day paid for some fourteen hours' work. The result is that in many precincts all judges and clerks are women.

When there were men on the boards they generally carried the ballots and the women composed the entire boards. There was nothing for the women to do but to get them themselves.

## WOMEN'S VOTE IN MAINE ELECTION ELATES G. O. P.

Leaders Predict Like Action in November.

BY E. O. PHILLIPS.

Double barreled 100 per cent Republican news from New England—the Maine landslide and the Connecticut ratification of the woman suffrage amendment yesterday—sent the Republican national headquarters at the Auditorium hotel into the seventh heaven of political delight.

Action of the Connecticut legislature in fully ratifying the nineteenth amendment was particularly satisfying, apparently, as having removed any legal question that might be raised over the Tennessee ratification. The national organization announced its readiness to proceed with redoubled effort to organize the woman voters for the Harding-Coolidge ticket.

The result in Maine, the headquarters leaders said, makes it a cinch that the big bulk of the woman vote in the nation will be cast for the Republican nominees on the league of nations issue.

Some G. O. P. Leaders' Views.

Here are some of the expressions of the Republican G. O. P. on Connecticut and Maine:

Mrs. Harriet Taylor Upton, vice chairman of the Republican national committee—This makes the thirty-seventh state. Now there is nothing in the way of women voting. Had Connecticut not ratified there would have been some litigation which would not have prevented suffrage, but would have caused some trouble and embarrassment. It is a fine result. Coming right on the heels of the Maine victory, it is all the better. This is a great day for us all. Now that all question is removed, we can go ahead with our work much more effectively. The men and the women campaigned together and worked together, as we always said they would.

United States Senator Medill McCormick—The election in Maine proves that so far as the American people are concerned they will have none of the covenant of the league, from the first sentence to the last. It will never be ratified by the senate. Men will be as eager to purge themselves of having assented to six British votes to our one as Lady Macbeth was frantic to wash the blood from her hands. When Congress declares the legal existence of the peace which for nearly two years has existed in fact, we then propose, for covenant of oppression, conceived in hate and hate, one based on Roosevelt's Christiania address, founded on the principle of international justice. We want no sovereign superstate and no international legislature, as proposed by Dr. Wilson and Gen. Smuts.

New Secs Sweep of Nation. Senator Harry S. New, chairman of the speakers' bureau—There is but one deduction that can be drawn as the result of the Maine election, and that is that Maine is an accurate indication of what is to happen in every other state between Maine and California. The Maine election dispels the Democratic claim that the women take an un-American view of the Wilson league of nations. It was the Wilson league or no Wilson league. Maine is a cross section of the United States today as showing sentiment on the Wilson league of nations.

Mrs. John G. South, assistant secretary of the Republican national committee—As go the women of Maine, so

## WARNING!!!

Stay in Your Own Party Primary!

The poll books of the Feb. 25, 1913 mayoralty primary have been sent to each precinct. They fix the party status of the voter. A person who voted as a Democrat then, if he votes today, must take a Democratic ballot or face prosecution for perjury. A person who voted as a Republican then likewise must vote as a Republican today. The poll books are to be used as a check. Party affiliations announced by voters as at the April, 1920, primaries do not count as that primary has been held illegal by the Illinois Supreme court.

Attorney General Brundage and State's Attorney Hoynes jointly issued a warning to voters to stay in their own party at the conclusion of which they say:

"All the power of our offices and of the courts will be vigorously used to strictly enforce the primary election law and to discover, convict, and send to prison all persons guilty of offenses against the law."

will go the women of Kentucky, my home state. I have always insisted that when the women had a chance to vote they would vote, and Maine proves it. It also shows that the Wilson league of nations is as distasteful to Maine women as it is to Kentucky women.

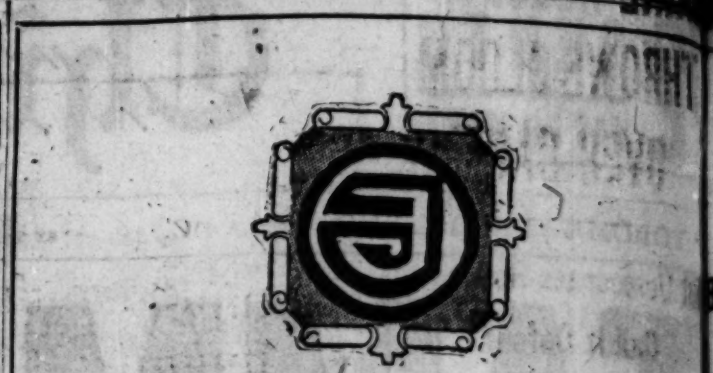

Congressman J. W. Good, chairman of the speakers' bureau at Chicago headquarters—The sweeping Republican victory in Maine is splendid. It is a forerunner of what is going to happen in November all the way from Maine to California and clear down through Tennessee and Oklahoma.

## MAINE RESULT THROWS GLO OVER CAP

But Democrats Refute Call It Defeat.

BY ARTHUR SEARS HEN  
Washington, D. C., Sept. 14.—The Republican landslide, which elected Frederick Parkhurst governor with more than 60,000 majority, plunged Democrats here into the depths of gloom. Parkhurst, 135,000 votes to 69,569.

That the result is an overwhelming repudiation of the league of nations by the voters of Maine was not denied by administration spokesmen who eagerly had made the paramount issue and state appeal for an endorsement of the treaty negotiated by the league.

**Hot Fight Over League**  
Among those who defended the league in Maine were Secretary of the Navy, Franklin D. Roosevelt, Democratic vice president, Calvin Coolidge, the Republican vice president, Lodge, and other Republican members of the state, attacking the league.

President Wilson felt this first signal repudiation of the voters of an entire state was carefully concealed by the executive at an hour's notice. Mr. Tumulty thought it would be the effect of awakening the voters and "dispelling any false impressions."

Mr. Wilson, it was learned, did not get into the campaign, but in a series of public letters, he could carry the day. But he felt also that he projected himself into the campaign without an express invitation. Mr. Cox, which so far has not been.

Democratic leaders like Secretary of the Navy, Franklin D. Roosevelt, had the Republican plurality down to normal proportions. They are compelled to fall back on the sentiment that the west will yet see the light. A Big Factor.

Whether the women of Maine were heavily tilted the men again. It is not clear from the reports from Maine state that 10,000 women voted and that the majority of the Republican ticket was carried by the women's vote. Comparison of the precinct returns of yesterday and those of four years ago, however, disclose such a large Democratic vote that it sent thousands of men, hitherto as Democrats, registering their disapproval of the administration.

The result in Maine is no more than a preview of the result in the 1904 Democratic men must have over to the Republicans in this year.

## EXPECTED!

Weiser, Idaho, Sept. 14.—Gov. M. Cox, Democratic presidential candidate, today made the following statement on the Maine election: "The result in Maine is no more than a preview of the result in the 1904 Democratic men must have over to the Republicans in this year."

But neither pyrotechnic money can win the fight. It is decided outside of Maine. In the September election the Republicans carried Maine, and yet in November President Wilson carried thirty

## WINE RESULT THROWS GLOOM OVER CAPITAL

Democrats Refuse to  
Call It Defeat.

ARTHUR SEARS HENNING.  
Washington, D. C., Sept. 14.—(Spe-  
cial.)—The Republican landslide in  
the election of Frederick H. Mc-  
Cormack, governor with more than  
a majority, plunged Democratic  
here into the depths of gloom,  
which few of them emerged suffi-  
ciently to dispute (for publication) the  
disclosure of public  
in this state election.

According to dispatches received here  
last night, best of all, G. McEntire  
lost by 65,376, with five towns and  
plantations still to be heard from.  
The vote was Parkhurst, 135,745; Mc-  
Cormack, 69,369.

That the result is an overwhelming  
victory of the league of nations  
movement by the voters of Maine con-  
firmed by administration offi-  
cials who eagerly had made the league  
the paramount issue and stumped the  
state for an endorsement of the  
treaty negotiated by the president.

Hot Fight Over League.  
Among those who defended the cov-  
enant in Maine were Secretary of State  
Daniel D. Roosevelt, Democratic  
candidate for vice president, and Wil-  
son, the president's son-in-  
law. Calvin Coolidge, the Republican  
candidate for vice president, Senator  
Charles McNulty, and other Republican leaders  
opposed the state, attacking the Wil-  
son movement.

President Wilson feels about  
the signal repudiation of his poli-  
tics by the voters of an entire state  
was carefully concealed by Secretary  
McNulty, who, after an hour's attend-  
ance at the executive at his desk,  
commented himself with observing that  
the Maine election "cannot be consid-  
ered as indicative of the general result  
of the November."

Wilson Would Enter Fight.  
McNulty thought it would have  
been an effect of awakening the Demo-  
crats and "dispelling any feeling of  
resignation."

McNulty, it was learned, would  
get into the campaign, feeling  
that in a series of public letters, for  
example, he could carry the "great  
sovereign referendum" on the cov-  
enant. But he feels also that he can-  
not project himself into the campaign  
but an express invitation from  
Cox, which so far has not mat-  
tered.

Democratic leaders like Secretary  
McNulty were prepared to claim a vic-  
tory had the Republic plurality been  
down to normal proportions, with  
McNulty for the women's vote. Now  
they are compelled to fall back on the  
fact that Maine is typical of eastern  
states where the vote will yet be  
sovereign and elect Cox.

Women a Big Factor.

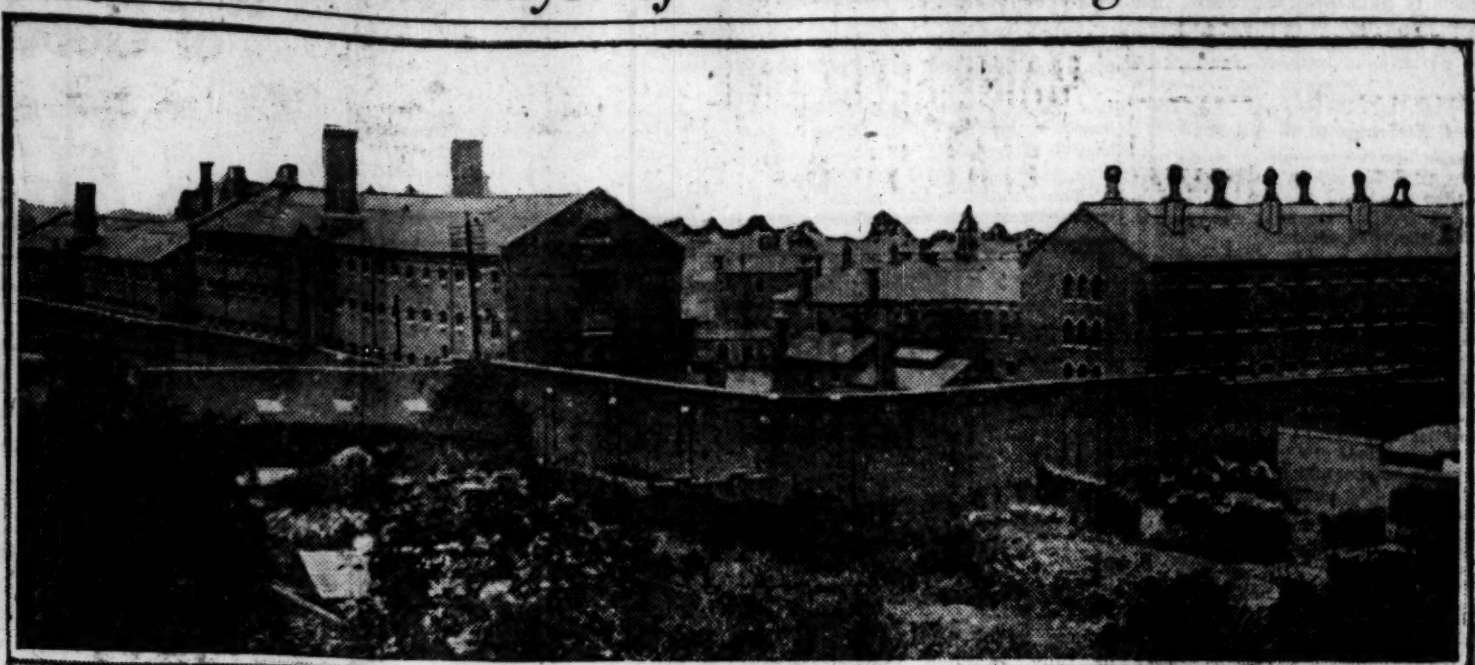

Whether the women of Maine voted  
heavily toward the men against the  
covenant is not clear from the returns.  
Reports from Maine state that about  
80,000 women voted, and that 60,000  
reported the Republican ticket.  
Comparison of the precinct returns  
yesterday and those of four years  
ago, however, disclose such slump  
in the Democratic vote that it is evi-  
dent that thousands of men, hitherto  
used as Democrats, registered their  
approval of the administration by  
voting the Republican ticket. In the  
state the Republican vote nearly  
doubled, while the Democratic vote  
remained stationary, if it was not actu-  
ally reduced, despite the enfranchise-  
ment of women.

Wherever the vote of women has  
been recorded separately it rarely has  
been materially from the men's vote.  
This rule prevailed in Maine about  
the Democratic men must have gone  
over to the Republicans in this election.

### EXPECTED!

Wahler, Idaho, Sept. 14.—Gov. James  
O. Cox, Democratic presidential candi-  
date, today made the following state-  
ment on the Maine election:  
"The result in Maine is no surprise.  
The majority is accounted for by the  
unusually total vote. Republican the-  
oretical Chairman Hays went into the  
state early and that clearly meant that  
Maine was to be prepared as the pyro-  
technician display for this campaign.  
But neither pyrotechnics nor  
money can win the fight. It will be  
decided outside of Maine. In the 1912  
election the Republicans  
carried Maine, and yet in November  
President Wilson carried thirty states

What Roosevelt Says.  
Pittsfield, Mass., Sept. 14.—Franklin  
D. Roosevelt, Democratic candidate for  
vice president, today gave out the fol-  
lowing statement bearing on the elec-  
tion in Maine:

"In view of the fact that it was a  
state election and in view of the fact  
that it was the state of Maine, I re-  
gard the election as without signifi-  
cance in its bearing on what will hap-  
pen next November."

White Is Optimistic.  
New York, Sept. 14.—Commenting  
on the result of yesterday's election in  
Maine, George White, chairman of the  
Democratic national committee, said:  
"This is the Republicans' day of re-  
joicing. We shall have votes for the  
league in November from thousands of  
the men and women who supported  
Col. Parkhurst. On a certain morning  
in November, our time for rejoicing  
will come, and in the meantime we  
gaze cheerfully upon today's Republi-  
can demonstration and do not begrudge  
it to them at all."

Chairman White, in a statement is-  
sued later today, referring to news-  
paper reports from Maine that the Re-  
publican organization there was "ac-  
tive and widespread" while the Demo-  
crats were "weak and feeble of re-  
sources" said:  
"That is true. Perhaps the general  
public will be interested in the reason  
for this contrast.  
"We are honestly but desperately  
poor. The poor man must pick and  
choose his expenditures. Lacking the  
power to purchase luxuries he confines  
himself to necessities. He cannot af-  
ford steak and mushrooms so he sub-  
stitutes comfortably on bacon and beans.  
The result often is that he outlives the

state election. We could not afford it,  
and so we charged it off long ago. We

did not organize it; we did not fill its  
cables with literature and its ears with  
oratory. The Republicans knew this,  
and with a conventional sense of polit-  
ical psychology set out to roll up the  
biggest majority possible, for its ef-  
fect on the country.

Dems' Time Coming.  
"Our kingdom is a coming, and the  
crossing of the Jordan is near at hand."  
But we do not conceal that the  
Democratic national committee is seri-  
ously put to it in the matter of money.  
We are hopeful that we will find  
enough to make ends meet, and that  
we will be able to place in the field be-  
hind our dauntless commander an ef-  
fective army, if a small one.

"The fight he is making is not one  
to be lost because millions are with-  
held from the Democratic committee  
by those who have them. Manna fell  
in the wilderness, and we look with  
hope to the moral forces of this na-  
tion, for whose issues we stand, not  
to permit our campaign to starve.  
"If we have to fight barefoot and on  
an empty stomach it has been done be-  
fore and successfully."

Odds on Senator Harding  
Go as High as Five to One

New York, Sept. 14.—(Special.)—  
The overwhelming victory by the Re-  
publicans in the Maine election played  
havoc with election odds on the pre-  
sidential race in the Wall street bet-  
ting ring today.  
A topsy-turvy condition was created  
as is indicated by the fact that in some  
quarters Harding was quoted a 5 to 1  
favorite and in others 3 to 1 prevailed.  
There was little Democratic money  
to be placed at odds of less than 4 to 1  
and few Republicans were willing to  
concede better than 3 to 1.

Desperately Poor.

### HOYNE VICTORY ASSURED, VIEW OF "REGULARS"

Members of the regular Democratic  
county committee last night predicted  
that State's Attorney MacLay Hoyne  
will win in today's primary. They  
urged all Democrats to vote, especially  
the women who have formed Hoyne  
organizations in every ward.

The Igoo camp claimed four more  
wards, the Eighth, Ninth, Twenty-  
third, and Twenty-seventh. Hoyne  
managers declare that what adverse  
vote may be registered in the small  
west side wards will be overcome by  
the vote from large residence wards,  
where Hoyne has always been strong.  
Ald. John Haderlein sent out a state-  
ment that his name had been used  
without his authority in a list of Igoo  
supporters, and urged his precinct  
captains to work for Hoyne.

"The question facing Democrats,"  
said Mr. Hoyne, "is whether the city  
hall machine shall be allowed to dic-  
tate Democratic as well as Republican  
nominations. The campaign against  
me is financed wholly or in part by the  
city hall machine. Every politician  
recognizes that the crew opposing me,  
if successful in nominating their can-  
didate, will not support him on elec-  
tion day, but will support the Republi-  
can nominee. Do the Democratic vot-  
ers wish to nominate a dummy to be  
bowled over on election day? Is it good  
judgment to nominate a candidate that  
the city hall machine does not want  
elected?"

## MYSTERY MURDER CLIMAXES WILD RAID BY BANDITS

Shoot Up a Town, Then  
Slay Chicagoan.

George L. Miller, a Chicago business  
man of apparently good reputation,  
was found shot to death in Leland, Ill.,  
yesterday under such circumstances as  
at first caused both Chicago and La  
Salle county police to believe he was  
a member of a gang of bank robbers.  
Further inquiry strengthened a suspi-  
cion that he may have been the victim  
of the gang rather than one of its  
members.  
Miller lived at 17 South Leland  
street. He had a Dodge car, engine-  
recently sold another machine, a Ford.  
Licenses for both cars were in his  
name. Former employers declare he  
was a steady, honest man. Recently he  
had been touring country districts buy-  
ing poultry.  
Miller was 40 years old and divorced.  
He always carried considerable money.  
In his room nothing was found to in-  
dicate that his operations might have  
been criminal. He left Chicago, driv-  
ing the Dodge car last Sunday night.  
He was to have returned last night.

Burglar Tools in Car.  
The body of Miller was found behind  
a store in Leland yesterday morning  
pierced by two bullets. A set of bur-  
glar tools was found in his Dodge car  
near by. His pockets were filled with  
loot from the store. He had eleven  
\$100 bills in his pockets. Leland, the  
town in which he was killed, is in La  
Salle county, twenty miles north of  
Ottawa.  
In Miller's possession were two let-  
ters from Stella Broughton of Madras,  
Ind., apparently a sweetheart. There  
also was an automatic pistol. He was  
dressed in overalls.

Police Have Many Theories.  
The police have various theories.  
One is that he was a member of a gang  
of five Chicago bandits who on Mon-  
day night terrorized the towns of  
Franklin Grove and Shabbona, and  
who robbed the store behind which  
Miller's corpse was found. They think  
Miller was killed in a fight over the  
spoils.  
Another theory is that while on his  
poultry buying expedition, Miller drove  
into Leland and stopped at the store  
while it was being burglarized. This  
store carries automobile accessories.  
When discovered, the bandits killed  
him, threw a sack of burglar tools in  
his car to cast suspicion upon him and  
then fled.  
Still another supposition is that Mil-  
ler was impressed by the bandits on  
their flight from Franklin Grove to  
Leland, and forced to carry them in  
his car, and that they killed him later  
to stop a "squeal."

A Wild West Held.  
In Franklin Grove the bandits cut  
telephone, telegraph, and electric light  
wires. They barricaded the streets  
with barbed wire stolen from a nearby  
ranch. Then they entered the bank  
and placed four charges of nitro-  
glycerin in the safe, which wrecked the  
building. Blood on the bank floor  
proved the firing glass had injured at  
least one man.  
The citizens, awakened by the blasts,  
became vigilantes. Shotguns, rifles,  
and small arms pointed fire from night-  
shirted forms on the village streets.  
The bandits fled on the Lincoln high-  
way.  
At 2 a. m. yesterday Leland citizens  
heard two shots. Four hours later the

filled," Mr. McKinley said.  
"I would like to be the agency  
through which three or four times this  
number of millions more would be  
brought into the state, and perman-  
ently invested in great works for the  
benefit of its citizens."

## ROOT LEAVES ENGLAND TO AID G. O. P. CAMPAIGN

### League Acts on Court Plan Tomorrow.

By JOHN STEELE.

[Chicago Tribune Foreign News Service.]  
LONDON, Sept. 14.—With the sailing today from Amsterdam for the United States of Ellis Root information was forthcoming from an American diplomat closely in touch with him that the former secretary of state proposes to take part in the presidential campaign.

Mr. Root is said to be confident of the cooperation of Senator Harding touching policies on foreign relations. He is strongly for American adhesion to the international court, which is the child of his brain, and upon which he looks as the high point in his career.

The principal business of the league council in Paris next Thursday will be the constitution of the international court.

**Compulsory Feature Debated.**  
Opposition is expected to the article which provides compulsory adjudication. Italy and Japan are known to oppose to this article, and, probably, America as well.

According to Mr. Root's view, some disputes among nations are judicial and should be referred to the international court, while others are not judicial and can only be settled through diplomacy or by war.

American is said to have been keeping the closest watch on every move of the league of nations and every document sent to members of the league also has been sent to the state department at Washington.

**World Court Scheme.**  
On the eve of Mr. Root's departure THE TRIBUNE obtained a draft of the plan drawn up by the international advisory commission of jurists at The Hague for the establishment of the international court. Following are some excerpts from the draft scheme:

"A permanent court of international justice, to which parties shall have direct access, is hereby established, in accordance with article 14 of the covenant of the league of nations. This court shall be in addition to the court of arbitration organized by the Hague convention of 1899 and 1907, and to the special tribunals of arbitration to which states are always at liberty to submit their disputes for settlement."

"The court shall consist of fifteen members; eleven judges and four deputy judges. The number of judges and deputy judges may be hereafter increased by the assembly, upon the proposal of the council of the league of nations, to a total of fifteen judges and six deputy judges."

**How to Be Chosen.**  
"The members of the court shall be elected by the assembly and the council, from a list of persons nominated by the national groups in the Court of Arbitration, in accordance with the following provisions."

"At least three months before the date of the election the secretary general of the league of nations shall address a written request to the members of the Court of Arbitration, belonging to the states mentioned in the annex of the covenant or to the states which shall have joined the league subsequently, inviting them to undertake, by national groups, the nomination of persons in a position to accept the duties of a member of the court. No group may nominate more than two persons; the nominees may be of any nationality."

**List of Nominees.**  
"The secretary general of the league of nations shall prepare a list, in alphabetical order, of all the persons thus nominated. These persons only shall be eligible for appointment, except as provided in article 12, paragraph 2."

"The secretary general shall submit this list to the assembly and to the council."

"The assembly and the council shall proceed to elect by independent voting first the judges and then the deputy judges."

"Those candidates who obtain an absolute majority of votes in the assembly and the council shall be considered as elected. In the event of more than one candidate of the same nationality being elected by the votes of both the assembly and the council, the eldest of these only shall be considered as elected."

**Sit for Nine Years.**  
"The members of the court shall be elected for nine years."

"The exercise of any function which belongs to the political direction, national or international, of states by the members of the court, during their terms of office is declared incompatible with their judicial duties. Any doubt upon this point is settled by the decision of the court."

"The members of the court, when outside their own country, shall enjoy the privileges and immunities of diplomatic representatives."

"Every member of the court shall, before taking up his duties, make a solemn declaration in open court that he will exercise his powers impartially and conscientiously."

may proceed to select or choose a judge as provided in the preceding paragraph.

#### COMPETENCE OF COURT

"The expenses of the court shall be borne by the league of nations in such a manner as shall be decided by the assembly upon the proposal of the council."

"The court shall have jurisdiction to hear and determine suits between states."

"The court shall be open of right to the states mentioned in the annex to the covenant, and to such others as shall subsequently enter the league of nations."

"Other states may have access to it."

"When a dispute has arisen between states, and it has been found impossible to settle it by diplomatic means, and no agreement has been made to choose another jurisdiction, the party complaining may bring the case before the court. The court shall, first of all, decide whether the preceding conditions have been complied with; if so, it shall hear and determine the dispute according to the terms and within the limits of the next article."

**Specific Spheres of Action.**  
"Between states which are members of the league of nations the court shall have jurisdiction (and this without any special convention giving it jurisdiction) to hear and determine cases of a legal nature, concerning:

"a. The interpretation of a treaty;  
"b. Any question of international law;  
"c. The existence of any fact which, if established, would constitute a breach of an international obligation;  
"d. The nature or extent of reparation to be made for the breach of an

international obligation;

"e. The interpretation of a sentence passed by the court."

#### Sources of Its Law.

"The court shall, within the limits of its jurisdiction as defined in article 34, apply in the order following:

"1. International conventions, whether general or particular establishing rules expressly recognized by the contesting states;

"2. International custom, as evidence of a general practice, which is accepted as law;

"3. The general principles of law recognized by civilized nations;

"4. Judicial decisions and the teachings of the most highly qualified publicists of the various nations, as subsidiary means for the determination of rules of law."

**Advisory to League.**  
"The court shall give an advisory opinion upon any question or dispute of any international nature referred to it by the council or assembly."

"When the court shall give an opinion on a question of an international nature which does not refer to any dispute that may have arisen, it shall appoint a special commission of from three to five members."

#### METHODS OF PROCEDURE

"The official language of the court shall be French."

"A state desiring to have recourse to the court shall lodge a written application addressed to the registrar."

"The application shall indicate the subject of the dispute, and name the contesting parties."

"The registrar shall forthwith communicate the application to all concerned."

"He shall also notify the members

of the league of nations through the secretary general."

"If the dispute arises out of an act which has already taken place or which is imminent, the court shall have the power to suggest if it considers that circumstances so require the provisional measures that should be taken to preserve the respective rights of either party."

#### Hearings to Be Public.

"The hearing in court shall be public, unless the court, at the written request of one of the parties, accompanied by a statement of his reasons, shall otherwise decide."

"When the agents, advocates and counsel subject to the control of the court, have presented all the evidence, and taken all other steps that they consider advisable, the president shall declare the case closed. The court shall withdraw to consider the judgment. The deliberations of the court shall take place in private and remain secret."

"All questions shall be decided by a majority of the judges present at the hearing. In the event of an equality of votes, the president or his deputy shall have a casting vote."

**Opinion of Judges.**  
"The judgment shall state the reasons on which it is based. It shall contain the names of the judges who have taken part in the decision."

"If the judgment given does not represent wholly or in part, the unanimous opinion of the judges, the dissenting judges shall be entitled to have the fact of their dissent or reservations mentioned in it. But the reasons for their dissent or reservations shall not be expressed in the judgment."

"The judgment is final and without appeal. In the event of uncertainty as to the meaning or scope of the judgment, the court shall construe it upon the request of any party."

#### TESTS LEAGUE'S CAPACITY.

LONDON, Sept. 14.—The headquarters of the league of nations today made public the text of the project for a permanent court of international justice, together with a letter from the league council to all members of the league of nations.

The council's letter says in part: "The council would regard an ir-

reconcilable difference of opinion on the merits of the scheme as an international misfortune of the gravest kind. It would mean that the league was publicly compelled to admit its incapacity to carry out one of the most important of the tasks which it was invited to perform. The failure would be great and probably irreparable; for, if agreement proves impossible under circumstances apparently so favorable, it is hard to see how and when the task of securing it will be successfully resumed."

**NOW here's something with a good story attached to it; we ought to tell you about it.**  
This davenport and chair are made from our own designs, and strictly according to our own quality specifications. We wanted some of these some time ago and the factory, on account of strikes and high cost of materials, couldn't supply them at any price.

We waited; and now we have them as we wanted them. And look at the price; it's just like "before the war." They're pieces that will grace any home; deep solid comfort to sit in, and made to last a lifetime. Everything about these pieces is first class; you may have entire confidence in what's covered up, as well as in the parts you see.

You'll find here a staff of salesmen who know furniture thoroughly, and who know our ideas about service and satisfaction to our customers; they're here to help you buy right, rather than to persuade you to buy.

## REDS AND RO MANIAN GU MEET IN BA

### Troops Beat Off Grenade Attack

BY GEORGE SEL

[Chicago Tribune Foreign News Service.]  
MILAN, Sept. 14.—An explosion took place tonight around the royal palace in Rome, as a result of the royal guards in the courtyard. Two hundred shots were fired against the troops, while the troops were addressing a large number of soldiers. A large number of soldiers were wounded, and the troops were forced to retreat. The royal guards were then ordered to fire back, and the fighting continued for some time. The result was a tactical draw, with both sides claiming victory.

# REDS AND ROYAL GUARDS MEET IN BATTLE

Troops Beat Off Hand Grenade Attack.

BY GEORGE SELDES.  
[Chicago Tribune Foreign News Service.]  
MILAN, Sept. 14.—An exciting fight took place tonight around Accademia, a suburb. Two motor trucks containing the royal guards in pursuit of the Red guards were sighted by Red guards. Two hundred shots were fired and hand grenades were thrown at the troops, while the burglars made their escape. The safes in several factories were opened by the operatives, who, however, failed to find any money. A large number of senators and deputies will meet tonight in Milan eventually to decide whether or not the operative plans for control of industries should be applied.

## SAYS RED SUN IS SINKING

BY JOHN BUTLER.  
[Chicago Tribune Foreign News Service.]  
TURIN, Sept. 14.—There are two reasons why the workers in the huge Fiat automobile plant here will quit the nightmare of communism. 1. Not many will work after two weeks of dilly-dallying, and there is no prospect of relief today. 2. They do not worship at the shrine of belief.

**Not Reds, Mere Strikers.**  
M. Colombo, secretary of the Turin union of the Italian confederation of labor and leader of the metal workers in the Fiat plant, is authority for the declaration that the workmen there are not Reds, but mere strikers.

He declared that the wage question was the only difficulty and that the striking men were not deceived as to the ultimate inefficiency of communism.

**Unable to Sell Out.**  
It is said the communist scare has made the employers generous and it is believed generally that a sane and equitable settlement is near. The working men who boast of communism either have been deceived or are trying to keep up the scare, says Sig. Colombo.

**ANARCHIST URGES REBELLION.**  
MILAN, Sept. 14.—Demands that the present movement of metal workers in Italy be extended in order to destroy the present social system in Italy were made by Enrico Malatesta, an anarchist leader, addressing a meeting of unions opposing the confederation of labor here today. Malatesta and other anarchist and syndicalist leaders proposed the formation of a "committee of action," with the purpose of bringing about a revolution.

## FEDERAL RESERVE BOARD TO TALK CREDITS MONDAY

Washington, D. C., Sept. 14.—[Special.]—For the first time since the conference of last May at which orders were issued to banks to curtail non-essential loans, members of the advisory council of the federal reserve system will meet with the federal reserve board next Monday. The general credit situation will be thoroughly discussed and it is expected regulations will be adopted embodying the views of the members of the council on future policies of the federal reserve banks and member banks of the system. The members of the advisory council are unanimously in accord with the policy of the federal reserve board in urging the banks of the country to curtail loans for non-essential purposes. The decision as to the essential character of a loan being left to the judgment of individual banks. It is expected that the members of the advisory council will report at next week's meeting that the so-called "frozen" loans have been liquidated to a sufficient extent to aid materially in financing the crop movement of the present season.

## Russo-Finnish Treaty Gives Finns Path to Sea

LONDON, Sept. 14.—A wireless message from Moscow says that an agreement has been reached by the Russo-Finnish peace conference whereby Russia concedes to Finland part of the Pechenga region, thus affording Finland access to the Arctic ocean, according to M. Kyzhenski, a member of the conference. Finland, however, is receiving less territory than was offered in 1918. Russia retains the right of free transit through Pechenga, communication with Norway thus being maintained. Finland is to evacuate two cantons in eastern Karelia, which the Finns occupied. These are to pass to the eastern Karelian labor commune. In the Finnish gulf all the islands are to be neutralized.

## Uncle Sam Sold \$6,664,110 Worth of Ships Last Week

Washington, D. C., Sept. 14.—Ships sold by the government in the week ending Sept. 11 brought \$6,664,110, according to a report by the shipping board. The Pennsylvania Steamship company bought four steel cargo vessels for \$3,315,000; the Baltimore Transit company bought one steel cargo ship for \$523,110; the North Carolina Steamship company purchased four wooden hulls and one tug.

## U. S. Mine Sweeper Safe After Grounding on Rocks

ZETICHAN, Alaska, Sept. 14.—The United States mine sweeper Swallow, which was grounded on the rocky snow passage, ninety miles west of here, at high tide last night, arrived under its own power late today and is laid up for examination.

## One Day Too Soon

Bernard and Clarence Roberts cast their lines into the Garfield park lagoon and caught six small black bass. But they put them back again, because the fishing season doesn't open until this morning.

(TRIBUNE Photo.)

"A W. GEE!" protested Bernard Roberts. "I had such a pretty one, too. He must have been six inches long and then the man made me throw 'im back in just because it isn't Wednesday." "We'll come back tomorrow and catch loads of 'em," comforted his brother, Clarence. Bernard and Clarence and their sister, Helen, attempted to beat the opening of the season in the west side park by one day yesterday, but a park policeman saw them and made them throw back about half a dozen small fish into the Garfield park lagoon. The regular season opens today and the fishy tribe may be pursued as long as the good weather lasts. No permits are necessary. The only condition is that the fishermen must rent the park boats and fish from them. The hours for fishing on Sundays are from 7 to 9 o'clock in the morning only. On week days the west park commissioners permit the anglers to fish from 7 o'clock in the morning until dark. And here's a tip from Supt. Armstrong of Garfield park. There are lots of four and five pound black bass in the lagoon this season.

## CHINA AND COREA DELEGATES SNUB JAP CONVENTION

TOKIO, Sept. 14.—Delegates from America, Canada, and many other countries are arriving to attend the great Sunday school convention here. Every delegate that has arrived so far has been presented with a pass over the government railway system to permit the widest investigation of conditions in Japan.

Although many Chinese and Korean Christians accepted invitations to attend the convention and at least 800 were expected, it has been announced that they have withdrawn their acceptance as a demonstration against Japanese actions on the Asian mainland. Every effort is being made to induce them to reconsider and attend.

## Olive Thomas' Body to Be Shipped Home Saturday

PARIS, Sept. 14.—It is probable the body of the late Olive Thomas, American motion picture actress, who died here late last week, will be shipped to New York Saturday on the liner Mauritania. Jack Pickford, husband of the dead woman, and a few friends, will accompany the body to America. Acute nephritis set up by the absorption of bichloride of mercury by the kidneys was given as the cause of death, following an autopsy performed yesterday.

## U. S. Steamer Sends Call for Help, Engines Disabled

LONDON, Sept. 14.—The American steamer Sinista sent out a wireless call for help this morning when forty miles east of Queenstown. The engines were disabled. Two trawlers went to the ship's aid.

## CONGRESS PARTY BACK TO EARTH ON HIGH SEAS

Gangway Stretches from Glory to Gloom.

[Chicago Tribune Foreign News Service.]  
TOKIO, Sept. 13.—The party of congressmen touring the far east sailed this afternoon, a great crowd of Japanese officials and others giving them a tumultuous banal of farewell.

After this glorious good-bye the congressmen walked up the gangplank into an inglorious surprise.

They found out that the army department had cabled the captain not to treat the congressmen as an official party, and all courtesies ceased at the gangway. Henceforth the special trains, suites de luxe, free automobiles, wines, and banquets stop and they resume their status of ordinary Americans.

**Five to a Stateroom.**  
The members of the party are crowded on an already overcrowded transport. There are five to a stateroom, and many first class passengers are sleeping in the troop dormitory.

Congressman John H. Small of North Carolina made the farewell address of the party to the Japanese government and people.

"Japanese and Americans," said the Japanese representative in reply, "are the sons of the same God in common brotherhood. The empire and the republic must join with other nations to promote civilization and to preserve peace. Japan and America have too many interests in common to permit existing and future differences to separate them."

**Plan for Harmony.**  
"Certainly differences will arise. Two brave, progressive peoples are certain to find from time to time that their purposes cross in conflict, but if we discuss them in the spirit of friendship and mutual good will a common ground will be reached under mutually satisfactory conditions. To this and we are sure our American friends will deem it a privilege to contribute."

## Britain Still Hopeful of Averting Coal Strike

[Chicago Tribune Foreign News Service.]  
LONDON, Sept. 14.—Government figures announced today show that instead of having a \$30,000,000 surplus in the year's total coal working fund, less than half that amount is available. Coupled with this report was a statement that awarding the wage demands of the coal miners would cause a heavy deficit in this fund. Great Britain still is most hopeful that the strike scheduled for Sept. 28 will be averted, but preparations to meet a general tieup are well under way. Even food depots and plans for food distribution have been arranged.

## Yellow Fever Is Raging in North China Provinces

PEKING, Sept. 13.—[Delayed.]—Yellow fever is raging among the 15,000,000 people of the famine district in the northwest Shantung, North Chili, and part of Shan provinces, according to reports reaching here today, based on an inspection made by A. D. Heintinger of the American board of missions.

## NOW SENATORIAL "OLIGARCHY," IS HITCHCOCK CRY

New York, Sept. 14.—United States Senator Hitchcock of Nebraska, speaking before the Arkwright club here today, declared Gov. Cox, if elected, would exercise the powers of his office as they were exercised by Wilson, Roosevelt, Cleveland, Lincoln, and other strong men of both parties, while Senator Harding, if elected, would exercise his presidential powers "under some form of dictatorship by a senatorial oligarchy in control of party machinery."

"If this question can be fairly considered by the voters," he said, "it seems to me a majority will decide in favor of an individual president, rather than a president acting as a figurehead for a combination of senators."

"The Republican managers, relying on the belief that their party is the strongest, have adopted a platform which may be interpreted in several different ways, after the election, on a number of important issues."

## CANDIDATES FOR CONGRESS FILE EXPENSE LISTS

Washington, D. C., Sept. 14.—[Special.]—Stephen A. Day, a Republican candidate for congressman-at-large from Illinois, has filed with the clerk of the house of representatives a statement showing expenditures to Sept. 5 of \$1,896.

The contest for the Republican nomination in the Sixth district, which will be settled at tomorrow's primary, seems to have been hotly contested by John J. Gorman and Francis W. Peterson. Gorman has filed an expenditure statement of \$712.50, and Peterson admits spending \$457.77.

Other related statements received were: Second district—James J. Leddy, Democrat, none. Fourth district—John W. Rainey, Democrat, none; P. E. McDonnell, \$22. Seventh district—W. J. Cullerton, Democrat, \$145.

# AUTUMN EXHIBIT OF DOMESTIC RUGS

Our Autumn showing of Domestic Rugs contains an unusual assortment of the finer rugs, including Anglo Persians, French and Royal Wiltons, chosen chiefly because of the exceptional workmanship within them and the rich beauty of their symbolic and Oriental designs. Chenille Rugs with plain colorful backgrounds of mulberry, taupe, blue and the somber shades of gray and brown.

It has ever been the policy of Pushman Bros. to choose for their patrons only rugs of the finer weave and pattern. This policy is adhered to just as strictly in our Domestic as in our Oriental Rug department—and yet our prices are no higher.

**Anglo Persian—Wiltons—**  
Finest quality.  
Size 9x12, \$195.00; 8.3x10.6, \$175.00.

## HARDING'S AID TO CALIFORNIA IN JAP MENACE

Golden State Promises  
Vote to G. O. P.

BY PHILIP KINSMLEY.

Marion, O. Sept. 14.—[Special.]—Senator Harding expressed himself for the first time today in addressing a delegation of forty Californians, who journeyed from the Pacific coast to assure him that there will be no wavering this year, and that the state will stand solidly for the Republican national ticket.

They are so sure of this that they do not require his presence on the coast during the campaign, they told him, and all ideas of a coast tour for the candidate, therefore, has been given up. Senator Hiram Johnson, it was understood, will get into the campaign behind Gov. Cox's tour of California, speaking in San Francisco and Los Angeles after Cox and then coming west to the doubtful states.

**Women Solidly for G. O. P.**  
The women of California, Mrs. J. B. Hume told the senator, had been accused of delivering the state to Wilson in 1916. This stain, she said, would be wiped out, and the women of the Golden State would annihilate the party whose president kept them out of peace.

The delegation was led by Gov. W. D. Stephens and M. F. Tarpey of Fresno, former Democratic national committeeman, who said that in this campaign he was a "patriot," and that he thought the success of the Republican party would end the disposition to override the representative form of government.

**Tells of Jap Menace.**  
Gov. Stephens, in addressing the senator on immigration, which is reported as a great and vital question that the next administration in Washington must face, said:

"Is a people and a nation we have the moral, the natural and the international law right to determine and decide who shall and who shall not enter into and abide in our country. With practical unanimity our people are opposed to further immigration into our republic of unassimilable elements. Standing as we do at the gateway of the orient, we are first to feel the effects of this immigration; and we believe it is our duty to warn the nation of the dangers which beset it as well as our state from this source." It was pointed out privately by the Californians that the war has brought the Japanese within 2,000 miles of their coast and has enormously increased the power and menace of that people in the Pacific.

**Backs California View.**

Senator Harding, in dealing with this question, said: "I do not doubt Americans on the coast are troubled in their minds about the oriental question, as it is called. There is abundant evidence of the dangers which lurk in racial differences. I do not say racial inequalities—I say racial differences. In spite of the honor of these oriental peoples, and in spite of their contribution to the world's advancement, it is conceivable that they may be so different in racial characteristics or in manner of life or practice from other peoples of equal honor and achievement that no matter whether it be on the soil of one or on the soil of the other, these differences, without raising any question of inferiority, superiority, or inequality, may create, as I believe they have created, upon our Pacific coast, without blame to either side, a friction which must be recognized."

**Problem for Nation.**

"The nation owes it to the Pacific coast to recognize that fact. The nation owes it to the Pacific coast states to stand behind them, in necessary measures consistent with our national honor, to relieve them of their difficulties."

"The problem incident to racial differences must be accepted as one existing in fact and must be adequately met for the future security of our people. As a people and as a nation, as Gov. Stephens has said, we do have the moral, the natural, and the legal international right to determine who shall or shall not enter into our country and participate in our activities. With a new realization of the necessity of developing a soul distinctly American in this republic, we favor such modifications of our immigration laws and such changes in our international understandings, and such a policy relating to those who come among us as will guarantee to the citizens of this republic not only assimilation of alien born, but the adoption, by all who come, of American standards, economic and otherwise, and a full consecration to American practices and ideals."

He emphasized the necessity of tariff protection for the Pacific coast agriculture and industries.

## FOR CONGRESS?

Daughter of Secretary of Labor  
Who May Seek Pennsylvania  
Nomination.

MISS AGNES WILSON.

Washington, D. C. Sept. 14.—[Special.]—Miss Agnes Wilson, daughter of the secretary of labor, William B. Wilson, may be a candidate for congress from the Fifteenth district of Pennsylvania in opposition to Representative Edgar Raymond Kless.

Although Miss Wilson was not in Washington tonight H. M. Shelton, who is occupying the Wilson's Washington home during the summer, said she is understood to be considering the Democratic nomination for congress.

When she comes to Washington at the end of the week, she is expected to announce her decision. Miss Wilson is one of a family of nine children.

If she runs for congress she will oppose Mr. Kless, who was first elected to the Sixty-fourth congress to succeed her father. He has been a member of congress ever since.

**Problem for Nation.**

"The nation owes it to the Pacific coast to recognize that fact. The nation owes it to the Pacific coast states to stand behind them, in necessary measures consistent with our national honor, to relieve them of their difficulties."

"The problem incident to racial differences must be accepted as one existing in fact and must be adequately met for the future security of our people. As a people and as a nation, as Gov. ## GOV. COX JUMPS 'G. O. P. FUND' UP TO 30 MILLIONS

Makes Ten Speeches in  
Borah Stronghold.

BY ROBERT B. SMITH.

Boise, Idaho, Sept. 4.—[Special.]—Gov. Cox today raised his estimate of the size of the Republican campaign fund from \$15,000,000 to \$25,000,000 or \$30,000,000.

He was addressing a crowd at Nampa, Idaho, when he was asked by a man in the audience:

"If you are elected president, how do you expect to restore conditions in America to normal after the war when 8 per cent of the wealth is in the hands of 3 per cent of the people?"

"I will tell you how," replied Gov. Cox. "If the 8 per cent will forget their politics and help me lick the 2 per cent that is raising a fund of \$25,000,000 to \$30,000,000 to beat me, we will make government an agency of 100 per cent of the people, and not of the 3 per cent."

**Doubles Former Figure.**

Gov. Cox has been contending for a long time that \$15,000,000 was the minimum of the Republican campaign

fund, but he never before made the figure so high as \$30,000,000.

Defying the throat specialist orders, Gov. Cox made ten speeches today, most of them from the rear platform of his train as it wound around through the Snake River valley on the way to Boise. At Boise Gov. Cox found himself in the stronghold of Senator Borah, one of the leaders of the senate "irreconcilables" in the fight against the league of nations. Nevertheless, the governor devoted much of his speech to a defense of the league, telling his audiences failure to ratify the treaty meant continued expenditure of billions of dollars for armament when the money should be used for irrigation and reclamation projects.

**Deplores Repeal of Law.**

The candidate took occasion to deplore the repeal of the presidential primary law in Idaho. "I learn, to my great surprise," he said, "that in this state the primary system has been cast aside. That is not a hopeful symptom. It is a great mistake. It implies a lack of trust in the people, and that is a slander on the citizenship."

Learning that the wool growers in this region are having difficulty in marketing their product, Gov. Cox renewed his attacks on the American Woolen company, officials of which, he said, are contributing to the Republican campaign fund. He charged that the company was deliberately closing down its mills for the purpose of depressing the wool markets.

In most of the towns he visited almost the entire population turned out to hear him. He found the Republicans more united, however, than in many years in Idaho. Ex-Gov. Gooding, Republican candidate for the senate, is out in opposition to the peace treaty, and has the support of Senator Nugent, Democrat, who is running for reelection.

## "REGULARS" WIN ALL NEW YORK'S PRIMARY RACES

Wadsworth Is First for  
Senator.

New York, Sept. 14.—Organization candidates of both Republican and Democratic parties in the New York state primary led their opponents 2 to 1 in all statewide contests when returns from more than one-half the state had been tabulated tonight.

Nathan L. Miller of Syracuse, former judge of the State Court of Appeals, who received the endorsement of the official Republican state convention for the gubernatorial nomination, led State Senator George F. Thompson when returns from 3,826 districts out of 7,374 in the state had been tabulated.

The vote was: Miller, 126,760; Thompson, 67,235.

United States Senator James W. Wadsworth Jr., who is a candidate for re-nomination and has the endorsement of the state organization, had a lead of more than 2 to 1 over the combined vote of two opponents, Mrs. Ella A. Boole, president of the state branch of the Women's Christian Temperance Union, and George Henry Payne, New York tax commissioner.

The vote in 3,539 districts was: Wadsworth, 139,068; Boole, 31,509; Payne, 19,619.

In the Democratic party Lieut. Gov. Harry C. Walker, organization candidate for the nomination for United States senator was leading Mayor George R. Lunn of Schenectady, the former Socialist, by a huge margin; 1,264 districts showed Walker with 61,462 and Lunn with 28,534.

Result of Vermont Polls.

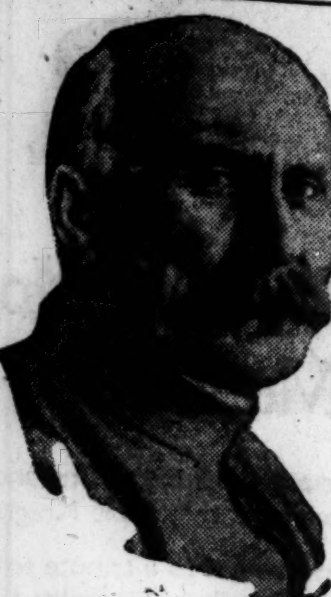

Montpelier, Vt., Sept. 14.—The Republicans of Vermont in today's primary nominated James Hartness of Springfield for governor in a four-cornered contest. The vote of the three other candidates, Frank W. Agan, Ed H. Babbitt, and Curtis S. Emery, was close that at a late hour it was uncertain who would finish in second place.

Mr. Hartness did not make an issue of the wet and dry question as did the other three. Returns from 225 towns out of 247 in the state gave him 22,422 votes. Mr. Agan, the avowed "wet" candidate, had 12,385. Mr. Emery, the "dry" candidate, had 12,187, and Mr. Babbitt, the "beer and wine" candidate, had 12,187.

Congressman Porter H. Dale was re-nominated in the Second district, where he easily defeated Ernest W. Gibson, running second, and John W. Gordon.

The total vote was heavy, largely

Schnytzer Leads in Colorado.

Denver, Colo., Sept. 14.—Returns from 108 precincts out of the 211 in Denver and from 322 outside of the city, compiled by the Rocky Mountain News, give Karl C. Schnytzer of Denver a lead of 2,617 votes over Samuel D. Nicholson of Leadville, with Rice W. Means of Denver running third, for the Republican nomination for United States senator in today's primary election.

South Carolina Winner.

Columbia, S. C., Sept. 14.—Leading his opponent, George Warren, by more than 14,000 votes, Senator E. D. Smith apparently had been re-nominated for the United States senate on the basis of incomplete returns from today's Democratic runoff primary, compiled last night by the Columbia State. The returns gave Smith 47,943 votes and Warren 32,469.

Early Washington Returns.

Seattle, Wash., Sept. 14.—Returns for United States senator from eleven precincts out of 2,366 in the state for the Republican nomination give Jones 230; Tricketson, 46; Hudson, 44; Inglis, 160. The Democratic candidate was unopposed.

### IDAVON CLAUSSEN FINDS NEW MATE WON'T BE A MATE

Reno, Nev., Sept. 14.—[Special].—Countess Ida Von Clausen-Davis-Dona-Mayberry, who was married here last Thursday to Raymond H. Mayberry, Los Angeles cinema artist, today filed suit in the Reno district court for annulment of her latest marriage. She says in her complaint that she believes Mayberry married her simply to escape the ordeal of working and further that he refused to fulfill his marital obligations.

"I married him," she said in an interview, "to get rid of him. He has been following me about the country for two years begging me to be his wife. He threatened to take poison if I did not."

Mayberry, however, tells a different story. He says he has learned the countess has never been divorced from her second husband, Dona, whose real name, Mayberry says, is Donagan.

Countess Von Clausen gained notoriety when she filed a damage suit against former President Roosevelt.

### CHAPLIN A RED? WELL, NOT WITH HIS BANK ROLL

New York, Sept. 14.—[Special].—Bolshevism for Charlie Chaplin? It is to laugh. The world's champion custard discus chucker is a capitalist, a monopolist, and the most bloated of bloated plutocrats. He says so himself.

Charlie's sudden conversion to the tenets of the malefactors of great wealth—if it is a conversion, for Charlie insists he has never favored socialism since his pay envelope began dealing axes instead of deuces—was made complete when he was informed that Mrs. Mildred Harris Chaplin is appealing to the law to split the Chaplin bank roll two ways.

"Why, it's a joke," he vouchsafed to reporters. "If Mildred said I was a bolshevik, it isn't true at all. I'm a capitalist, but I don't want everybody to know it, because they'd be touching me up. If I were a bolshevik, they'd all be wanting me to share fifty-fifty, like Mildred does."

## "FRANK, FRANK, FRANK, THE DEMS ARE SPEA-KING"

"Cheer Up, Comrades, You'll Get Free Dope."

(BY A STAFF CORRESPONDENT.)  
Washington, D. C., Sept. 14.—[Special.]—Stacks of bulging mail sacks in the marble corridors of the house of representatives office building today told the story of a flood of Democratic campaign propaganda that is going to the voters in every part of the country. It is going at a minimum of cost to the Democratic war chest, but at some expense to the taxpayers and to the detriment of the white paper supply.

On the first floor of the building are the headquarters of Representative Henry D. Flood of Virginia, chairman of the Democratic congressional committee, who is directing the attempt to elect a Democratic house. The offices are rent free to the Democrats, despite the fact that they are being used for a purely political purpose now.

**200 Sacks of Mail.**  
The stacks of bulging mail sacks stretch on either side of the Democratic suite. At one time eight large piles of sacks were counted. In three of the piles there were more than fifty sacks by actual count. Other piles were somewhat smaller, but the eight piles easily totaled more than 200 sacks.

Near the top of each of these sacks was a slip showing that it contained Democratic speeches printed at the government printing office. As part of the Congressional Record the speeches, while avowedly campaign propaganda, can be circulated to the voters free of postage.

**Small Expense to Democrats.**  
Thus the Democratic campaign managers by using careful economy can distribute many speeches at small cost. They can get them printed at government printing offices at cost. They can have them folded and delivered to their offices, for which they pay no rent.

Practically the only operation the Democrats have to pay for is the addressing of envelopes and stuffing the speeches back into the mail sacks from whence they came.

**MYSTERY PHONE CALL FACTOR IN STEINHOUSE CASE**  
Tampa, Fla., Sept. 14.—[Special.]—Police probing the death of Mrs. E. E. Steinhouse started on the theory today that another woman was implicated in her death. Arthur H. Grotefeld, brother of the woman, who had practically arrived at the conclusion that she had taken her own life, is now undecided.

Motorcycle Officer Mariscano says he observed a figure clothed in a kimono being driven toward the river at 3 o'clock Tuesday morning. He said the driver was a slender man. On the back seat was the figure of a woman in a reclining position. He thought it was some one intoxicated and paid no attention to it until the Steinhouse case came to light.

The day Mrs. Steinhouse's body was found Chief of Police Guy Topp received a mysterious phone call from a woman who refused to tell who she was, but said the woman whom the officer had seen in the car was being taken to the hospital and that the case was a maternity case. Search of the records of all hospitals fail to show a single maternity case early Tuesday morning.

**YOUNG MEADS IS INDICTED; TRIAL STARTS MONDAY**  
Woodville, N. H., Sept. 14.—[Special.]—Robert T. Meads of La Grange, Ill., was indicted today by the Grafton county grand jury for the murder of Henry E. Maroney of West Medford, Mass., fellow student at Dartmouth college, whom he shot and killed last June following a quarrel over a quart bottle of liquor.

The trial commences next Monday, the date agreed on by Solicitor J. H. Noon and A. H. Meads, father of young Meads, who is to act as his counsel. The elder Meads will attempt to prove his son shot in self-defense.

Winnipeg, Manitoba, Sept. 14.—[Special.]—Storm tossed in their canoes on the northern lakes and then stranded almost without food for a day on a mud bank, fifty members of the Manitoba legislative party were rescued tonight.

Tents were erected on a barge which had stranded at midnight Monday thirty miles from the starting point and about forty miles from the Pas, when a propeller shaft snapped.

## CITY WILL ASK MILLION MORE FOR TWELFTH ST.

\$1,226,000 Spent Now; Estimate \$957,000.

Although the Roosevelt road viaduct is only 26.5 per cent complete, the city administration is already planning to ask the voters for an additional bond issue of \$1,000,000 to finish the work. Original estimates called for the expenditure of \$957,000. City Engineer P. S. Combs has already spent \$1,226,000 to complete a little more than one-fourth of the job.

Increased material and labor costs is the explanation offered by city officials for the big expenditure and the small showing, but Oscar Hewitt's recent articles in THE TRIBUNE, in which it was shown that workmen were given as high as six days' pay for one day's work on the viaduct, throw another light on the subject.

Send S. O. S. to Roads.  
It was announced yesterday that the work will cease next week unless the five railroads whose tracks are to run beneath the viaduct come to the city's assistance. If the roads respond to the appeal sent out yesterday by Assistant Corporation Counsel Leon Hornstein, Mr. Combs hopes to complete one side of the viaduct, thus opening traffic, before going to the voters for more money.

Besides \$40,000 spent on the eastern approach in 1918, the city has spent all but \$14,000 of the \$1,200,000 bond issue authorized by the voters in 1919.

It is now estimated that instead of the original \$957,000, the structure will cost nearly \$2,000,000. The five roads—the Lake Shore, the Grand Trunk, Chicago & Western Illinois, Santa Fe and Rock Island—have agreed to pay \$791,000 toward the improvement. When the agreement was reached in 1914, that sum was nearly 85 per cent of the viaduct's estimated cost. Now it is considerably less than one-third of it.

**City Would Collect \$157,092.**  
Under the roads' agreement with the city 85 per cent of their share is to be paid in monthly installments, in proportion to the work completed. Mr. Hornstein's appeal, therefore, asks that the roads pay 85 per cent of their share of the work already done—26.5 per cent of the entire job.

The amounts sought are:  
L. S. & M. S. R. R. .... \$ 29,071  
Grand Trunk ..... 5,929  
C. & W. I. R. R. .... 68,172  
A. T. & S. F. .... 19,547  
C. R. I. & P. .... 34,373  
Total ..... \$157,092

"We are suddenly confronted with a condition that would necessitate a suspension of the work unless we immediately receive payment of what is due from the railroad companies," says Mr. Hornstein in his letter to the carriers.

## Chicago Leads in the Manufacture of Furniture

More furniture is made in Chicago than at any other place in the World. In fact, one-fifth of all the furniture produced in the United States is made in Chicago.

The total annual output of furniture in the United States is valued at \$250,000,000, the Chicago output at \$50,000,000.

This impressive development in Chicago has come about largely in recent years. Within three years one concern has increased its production from \$1,500,000 a year to \$5,000,000 a year.

Chicago has the largest chair factory in the world, making 600,000 chairs annually. This same concern makes more reed furniture than any other and is the largest importer of rattan in the United States. It employs 1,000 workers.

There are ten furniture exposition buildings in Chicago, one being the largest in the world. In these buildings the wares of 400 to 500 concerns are examined by 5,000 buyers every July and January.

There is hardly any furniture, from the most severely practical to the most highly artistic, from the simplest to the most expensive, for whatever purpose, that is not produced in Chicago. Also many things which do not come under the strict definition of furniture, yet which are closely allied with it such as office fixtures, billiard tables and bowling alleys are made here and would swell the total output to twice the totals given above.

For further information on "Chicago In The Manufacture of Furniture", send for our industrial bulletin No. 3 which contains a reprint of an illustrated article on the making of furniture from the Fort Dearborn Magazine, also additional data.

## The Motor of Monarchs and the Monarch of Motors

Their Majesties the King of England and the King of Spain use the Silent Knight Motor.

We mention this not as a tribute to Royalty, but as Royalty's tribute to quality!

They choose it because it is a motor that will not falter in the performance of its duty, and, perhaps, because it preserves the ancient tradition of flunkys, by being eternally at beck and call.

The Knight Motor has no valves to grind, service but adds to its efficiency and power, and, like a fine violin whose quality improves with age, the longer you use it the better it performs.

**O**BSERVERS of changing conditions know there has never been a time in the history of the retail business in this country when *quality* and *economy* ideas—and the dealers who stand for those ideas—had such a hold on the public.

A demand is now sweeping over the country for better—more *serviceable*—more *economical* merchandise.

The straightforward dealer knows this.

He knows that *once public confidence is established*, a dealer's success is assured—that the public is only going to continue to buy from dealers whom it can trust and esteem—

That is why, in the stores of over a quarter million dealers in this country, you will always find the Gillette out where you can *see* and *examine* it.

On top of the counter—in the show window—ready to be handed out *first* whenever a man comes in looking for a razor.

The Gillette is the only *scientific* shaving instrument ever produced.

It started—not with a theory or a desire to sell razors—but with the *actual shaving needs* of men everywhere.

And working from that, it developed into a *personal shaving service*—a service that has gone 'round the world and changed the shaving habits of thinking men everywhere.

## MARKHAM FINDS UNWARRANTED DELAYS ON I. C.

### Points Out Errors in Data of Critics.

On Aug. 16 D. O. Thompson, secretary of the Illinois Agricultural Association, made public a statement that there was no shortage of freight cars. He added that 9,294 freight cars were held up at 494 railroad stations in Illinois.

Sixty-six cars, he charged, had remained inactive for more than a week on the Illinois Central line.

Replies to Critics.

President C. H. Markham asked Mr. Thompson for the cars' numbers.

Yesterday he issued the following report to Mr. Thompson:

Nineteen of the cars were not on the Illinois Central tracks at the time of Mr. Thompson's checks.

Nineteen were undergoing repairs at Mattoon.

Two were listed twice in Mr. Thompson's memorandum.

Two were not detained at the stations named.

Twelve were detained for seven days or more.

Twelve were detained from one to six days.

In the cases of all except two cars,

## EQUIPMENT MAKERS AND ENGINEERS IN RAIL CONVENTIONS

The annual conventions of the Railway Equipment Manufacturers' association and the Traveling Engineers' association were held jointly at the Hotel Sherman yesterday. Officers for the former organization were elected.

The new president is D. L. Eubank, F. W. Fenton was elected secretary, and M. B. Brewster treasurer.

Members of both organizations visited railroad equipment manufacturing plants (TRIBUNE Photo.) here during the day. In addition to other industrial plants of interest, theater parties also were on the program.

Mr. Markham explained the delay was unavoidable. Two cars, he stated, were delayed for no apparent reason.

Doubts Other Delays.

"But I have no doubt," wrote Mr. Markham, "that other cars suffered delays."

"I do not question the integrity of either you or your investigators. I am sure you were making a sincere effort to assist in relieving transportation conditions."

"I believe that you will, in all fairness, want to correct the mistaken impression the public may have gained from reading your report."

## EX-SAILOR FOR SALE AT \$5,000; ONLY \$3,000 CASH

New York, Sept. 14.—[Special.]—Jack Hardy, a former sailor, now living at No. 28 West Thirty-seventh street, offers himself for sale for \$5,000; terms, \$3,000 cash; remainder in easy payments.

"I am ready for any kind of work and will not balk at being sent or brought to any part of the world, China, the Philippines, South America—it's all one to me," he said.

If he should find a "buyer," which present laws render highly improbable, he wants the \$3,000 "to turn over to a lady who has been more than a mother" to him.

"For myself," he says, "I do not want anything except a bare living and perhaps cigaret money."

## Ice Cream for Dessert

### Should Be the Rule Not the Exception

Just as milk is the universal drink for children, because it is so nourishing, so healthful, so good for them generally—Ice Cream should be the regular family dessert, Summer and Winter. The reasons are the same. Ice Cream is undoubtedly the most nourishing, most healthful and best all round dessert.

It should be served in the home at least once a day. And, if the same day, some members of the family eat Ice Cream away from home, at the drug store or the restaurant, so much the better for them. Ice Cream eating is a good habit, the doctors say.

### HYDROX and GUERNSEY

### ICE CREAMS

should have a strong appeal to all who appreciate the best. They have long been regarded as best by Chicagoans if you can judge by the fact that the Hydrox Company is doing much the largest business. The sanitary conditions of our plant, our modern equipment and our high standards in selection of materials have enabled us always to produce Ice Cream of unquestioned Purity. But now we are advertising that our Hydrox and Guernsey brands are purer than ever before, and purer than any Ice Cream can be made by using the old "air" freezing method.

### New Process Means Purer Ice Cream

The Hydrox Company is the only concern in Chicago using a newly perfected process that is rapidly being adopted the country over, due to the great improvement it makes possible in Ice Cream manufacture. By this process the ordinary air is forced out of the freezers, while the cream is being frozen, and is replaced with atmosphere a hundred times purer than air. After remaining in this sterile atmosphere during the entire time it is in the freezers, naturally it is purer than would otherwise be possible. When you buy Ice Cream in the future be sure to get "Hydrox" or "Guernsey."

### Who Pays the Packaging Costs?

You do, Mrs. Housewife. Whether you wait while George hunts for a scoop to weigh out your sugar, coffee or cereal, or whether instantly you are handed a neat package which, at the same time, guarantees the freshness and purity and cleanliness of the material you buy.

On the one hand you pay for George's time, labor and inaccuracy in weighing, as well as for the paper bag. On the other hand, however, the packaging cost is trivial. One machine packages 15,000 to 18,000 packages a day. Does it accurately and sanitarily. Packages are air-tight and dust-proof. No vermin, rats or mice get into material.

The manufacture of the machinery which now packages 90% of all machine-packaged goods offers a wealth of packaging knowledge and experience to those bulk goods manufacturers who are at present contemplating a factory machine-packaging system, which will replace up to 40 hand operators.

## PAYING OF DEBTS MEXICO'S PLAN, OBREGON SAYS

President Elect Also Talks  
of Oil Claims.

(Chicago Tribune-New York Times Cable.)

Mexico City, Sept. 14.—President-elect Alvaro Obregon, in his first interview given to the American press after his election, said:

"The most serious problem that confronts the government of Mexico is financial."  
"We will pay our debts as far as possible," he added, "and will arrange to pay off all obligations. I think that when we show that we are paying to our full capacity, we can arrange all our difficulties. Deeds, not words, will be our motto regarding our debts."

### Undecided on Huerta Debt.

When asked if Mexico would include the Victoriano Huerta loan of about \$2,000,000 pesos, Senor Obregon stated he had not studied the matter thoroughly, but he would have a commission of experienced experts pass upon Huerta's debts and the manner in which to pay them.

Gen. Obregon said he had not studied the oil question enough to make a statement, but that article 27 would be regarded as a fundamental part of the constitution, but a commission would act as to protect vested rights.

### Won't Tolerate Reds.

Gen. Obregon said when he had taken the oath of office he would not permit the spread of bolshevism and other doctrines which would injure the state.

The national railway lines would not be given to private control, but stockholders by direct vote could see their investments were protected.

Gen. Obregon said he did not consider the labor problem very serious and thought it would work out gradually with benefits to both worker and capitalist.

### U. S. TO GET LATEST WORD.

Washington, D. C., Sept. 14.—George F. Summerlin, chief d'affaires at Mexico City, is believed to have left today and is due here in about a week to confer with state department officials. Mr. Summerlin was summoned, it is understood, to talk of matters which have been the subject of recent informal representations to the Mexican government as to protection of American oil and agricultural rights in Mexico.

## PLOT TO SLAY OBREGON UNDER INVESTIGATION

Mexico City, Sept. 14.—Investigation of reports that a plot against the lives of Gen. Alvaro Obregon, president elect; Gen. P. Elias Calles, secretary of war, and other officials has been begun by Mexican civil and military police, the secretary of war announced tonight. This action was taken after many telegrams had been received from Mexican consuls in the United States, who said the plotters were at present in San Antonio, Tex.

## POSTOFFICE HEADS RECOMMEND BRANCH ADJUSTING BUREAUS

Postmaster William B. Carlie was elected vice president of the National Association of Postmasters at the annual meeting held in Cincinnati last week. On his return yesterday Mr. Carlie said one of the most important matters discussed was the establishment of branch adjusting bureaus for the settlement of complaints of lost and damaged mail. The association recommended that bureaus be established in sixty cities. At present there is only the main bureau at Washington.

## FEW POLITICAL PRISONERS NOW, LABOR MEN TOLD

Washington, D. C., Sept. 14.—Labor leaders asking general amnesty for political prisoners were told today by Attorney General Palmer that the government would continue its policy of "considering the cases individually."

Replying to the appeals of Samuel Gompers and of former Representative London, New York Socialist, Mr. Palmer said the cases acted upon and predicted that "at the end of three months fewer than 100 of the persons convicted purely of violation of the espionage act would be left in jail."

Replying to statements by Mr. Gompers that other countries had released all political prisoners, Mr. Palmer said the number who actually suffered punishment under war time laws in the United States was infinitesimally small, while in some parts of Europe "they slap men in jail for merely disagreeing with the government and expressing that disagreement."

## "BUNKERHILL FARM MYSTERY" MORE TANGLED

Carlinville, Ill., Sept. 14.—The Bunkerhill farm mystery, whatever the truth about it may be, probably will cost the life of Robert McCurdy, whose aunt's farm at Bunkerhill was said by him to have been the object of repeated bandit raids. But now the story told by Robert at the Litchfield hospital has caused the sheriff to hunt not for vengeful bandits, said to have shot Robert, but for Robert's pal, "Jack Williams" of the Cleveland High school, St. Louis.

"Jack Williams," Robert said, had \$1,000 when he and Jack started on a bicycle trip from St. Louis. The boys parted at Brighton, Robert intending to visit "a rich aunt at Bunkerhill."

Robert says four attempts to rob his aunt's home followed and he shot one of the bandits.

But the only thing known is that Robert has a bullet wound in the abdomen and it is feared he will not recover.

## JACK JOHNSON'S "REPRIMAND" IS YEAR-AND-A-DAY

### New Sentence Staggers Hopeful Negro.

JACK JOHNSON.  
Pugilist, was taken before Federal Judge Carpenter yesterday for re-sentence on a charge of violating the Mann act. He was fined \$1,000 and ordered confined at Leavenworth for one year and one day. Exactly the same punishment was fixed by Judge Carpenter seven years ago, when Johnson was first tried on the charge of transporting Bertha Schriber, a white woman, from Pittsburgh to Chicago. Johnson jumped a \$15,000 bond pending appeal of the case and fled from the United States. He returned voluntarily last July.

Smile Fades as Blow Falls.  
Johnson was smiling as he entered the courtroom. "I don't hope that judge says, 'Jack, you're a free man,' he said to Deputy Marshal Thomas Henneberry. Some one apparently had satisfied Johnson he was to receive only a minor sentence, for he appeared dazed at Judge Carpenter's sentence. There was no smile on his face as he left the room. "I'm sore," he said. "They didn't give me a fighting chance. A stiff reprimand would have been sufficient."

No Sign of Remorse, Judge Says.  
"I can see no reason for making a change in the sentence," Judge Carpenter said. "If the conduct of the defendant had been such as to indicate that he regretted his criminal act, I might feel differently about a reduction of sentence. On the contrary, Johnson has behaved in a manner to indicate a complete disregard for the laws and institutions of this country."

Judge Carpenter granted Johnson's attorney, S. A. Watkins, a stay of execution until Saturday to file a writ of error in the Court of Appeals.

## MARINES SEIZE MORE FUEL OIL AT SHELL PLANT

Martinez, Cal., Sept. 14.—Thirty-five hundred barrels of fuel oil were seized today by a detachment of about fifty marines from Mare Island navy yard. The company refused to deliver the oil and locks on the pipe lines were broken, as was done last Saturday, when 2,000 barrels of oil were seized by Mare Island authorities.

The oil was transferred from the Shell tanks to a navy barge, which then returned to Vallejo.

The company refused to sell at the price the government offered of \$2 a barrel, demanding \$2.35.

## MRS. KUEHLING'S WILL FILED; ALL PROPERTY TO SON

Detroit, Mich., Sept. 14.—[Special.]—Coincident with the release from custody of Roy H. Kuehling after a Washington, D. C., grand jury had voted not to return an indictment against him for coöperation with the drowning of his wife, Gertrude V. Kuehling, former Detroit heiress, the will of his widow was filed in probate court here.

Neither Kuehling nor Howard H. Osgood, from whom Mrs. Kuehling was divorced in Detroit last year, is being questioned any of her share of the million dollar estate. With the exception of a black jet bracelet which goes to Mrs. Marie Barham of Los Angeles, all of her property is left to her four-year-old son, John Barham Osgood.

The boy is to be educated and supported by the income from Mrs. Kuehling's property until he attains the age of 25 years, when he will be given full ownership and management.

Mrs. Kuehling's will was drawn April 3, 1919, when her name was Gertrude Viger Osgood. She added a codicil Dec. 30 of the same year ratifying and confirming the original testament in every respect over the name of Gertrude Viger Kuehling.

# BUSINESS

Just as lawyers, doctors, and engineers, who but yesterday were trained in the school of experience, are now required to have a definite, systematic training, so are the business men of today recognizing the fundamental necessity of a scientific and systematic training for business leadership.

No one would think of sending a prospective chemist to a laboratory to work out his problem at random without the benefit of the scientific principles already achieved; no more is it wise to leave the prospective business executive to learn exclusively from the mistakes of daily routine.

The Northwestern University School of Commerce with its expert instructional staff, among whom are successful business men and eminent educators, places its students in an exceptional position to benefit from contact with the trained investigator, and with the man of affairs.

Since the establishment of the School of Commerce over 10,000 ambitious young men and women of Chicago have taken its part-time and evening courses. There could be no better evidence of the quality of its service.

## CO-OP COMPANIES FOR CHICAGO AND ST. LOUIS YARDS

Farmers' Board Votes to  
Join New Movement.

BY FRANK RIDGWAY.

Plans for establishing live stock commission companies at the Chicago and St. Louis stockyards were approved by the executive committee of the Illinois Agricultural association, which met here yesterday. The farm bureau of this state proposes to join the movement with bureaus and other farmers' organizations of the middle west.

It is stipulated a special committee must be appointed by the American Farm Bureau federation and other farmers' organizations to investigate whether the advantages of a cooperative sales organizations at the live stock markets will outweigh the difficulties involved.

A joint meeting will be held in Manhattan, Kas., Sept. 22 and 23, to work out the plan from the corn belt farmers' standpoint. Then a general live stock conference will be held in Chicago. This meeting will be called by the federal bureau.

Move Has Foothold Here. It is pointed out that 75 per cent of the live stock from the farms of Minnesota is handled through cooperative shipping associations. The movement is now in Illinois, but more than 30 per cent of the hogs, cattle and sheep in this state are marketed through the cooperative associations, and the number is rapidly growing.

The movement is spreading to every corner of the middle west states. To support the new system the live stock marketing department of the state association is conducting a survey of the number of cattle and hogs in these feed lots. The farmers want statistics to help them stabilize the market and handle their shipments intelligently. Similar surveys are being carried on in adjoining states.

Fewer Live Stock in Illinois. Forty-one counties are being surveyed in Illinois; thus far thirty-three have made returns. The figures indicate there is a tendency among the farmers to feed less live stock than they did last season. This is especially true of cattle.

A further step in the new movement is the recent placing of C. A. Stewart, the farmers' yards representative, at the Chicago market.

## ILLINOIS WILL MEASURE MINDS OF ITS KIDDIES

Springfield, Ill., Sept. 14.—Tests to determine the mental capacity of approximately 200,000 public school pupils in Illinois will be taken during the week of Oct. 4, according to Dr. Walter S. Monroe of the bureau of educational research of the University of Illinois. The mentality tests will be conducted through the efforts of this bureau. They are sponsored and in large part devised by Dr. Monroe.

Classification and standardization of the children individually rather than by groups is sought. The aim is to determine the mental age of each pupil. Children in the first and second grades will not be examined.

Taking of the tests in October will be confined largely to the rural districts and smaller cities. It is expected, but all grade schools in the state may take part. Dr. Monroe reports that county school superintendents of about half the counties in the state have signified their intention of participating. Blank test booklets have been sent out to county superintendents with instructions, and the method of conducting the tests is being explained at the superintendent's institute.

The examination consists of three distinct scales: a group intelligence scale, Monroe's standardized silent reading tests, and arithmetic tests.

Plans leading to the October examinations were discussed at a meeting of representative educators and local committees in Springfield in December, 1919. Dr. Monroe said, and further plans were made at a conference of about twenty county superintendents in Urbana last July.

KILLED BY ELEVATOR. Henry Kenneth, 716 Gardner street, laborer, died yesterday after being crushed by an elevator in the Rex Machine company plant at 2201 Shields avenue.

## "COOKING JUST LIKE MOTHER'S" CAPTURES CHEMISTS' HEARTS

When 2,000 delegates attending the convention of the American Chemical society in Chicago last week were making arrangements for their banquet, they interviewed restaurant managers and hotel chefs by the score. In every case something was lacking. Then Mrs. Joseph A. Odell, of the Evanston Community kitchen was consulted and she served the banquet, minus orchestral din, but plus extra helpings.

Mrs. Odell yesterday received a letter from Dr. William A. Noyes, president of the society, complimenting her on the excellent meal which he and the other 2,000 delegates pronounced "as good as mother used to make." Their tribute to Mrs. Odell's gastronomic triumph has been incorporated in a resolution, a copy of which has been sent to her.

Montgomery, Ala., Sept. 14.—Alto Windham, white, was lynched last night near Hartford, Ala., because of remarks he was alleged to have made to a white woman. The woman's husband is reported to have telephoned a neighbor to stop Windham. This was done and soon a number of men arrived. The neighbor refused to surrender the man until he received a promise that he would not be harmed. The man was taken to a nearby swamp and lynched.

## FOREMAN SLAIN WHEN HE FINDS BANDITS IN PLANT

Body Is Left in Factory as  
Slayers Flee.

John Zolek, 43 years old, of 2237 West Eighteenth street, was murdered early yesterday in the washroom of the factory of W. H. Jackson & Co., 1829 South State street. Zolek's skull had been broken with a club. He was foreman for the company.

Police believe the murder was a sequel to a holdup. Zolek's pockets had been stripped and a diamond ring stolen.

Suspect Is Solved.

A suspect was locked up at the South Clark street police station and his name withheld.

About 9 a. m. T. E. Walling, the general manager, telephoned from the offices at 746 South Michigan avenue to the plant. He received no response, so he sent Charles Mase, a clerk, to investigate.

Mase found the door to the washroom wedged shut with a shovel. A blood stained hammer and a piece of heavy plank were nearby.

Zolek apparently had surprised the robbers when he arrived at the factory.

Was to Wed Soon.

Frank Zolek of 2237 West Eighteenth street, his father, said Zolek had left home "in happy spirits." "He had no enemies, I am sure," said Mr. Walling. Zolek was to have been married shortly.

Deputy Coroner Charles H. Fitzner continued the inquest pending investigation.

FALLS THREE STORIES; KILLED.

Edward Linden, 43, 3110 Lendale avenue, was killed yesterday when he fell from a third floor window near his home.

# Butter and Eggs via Motor Express

IN addition to over a million farmer-owned automobiles, 18,000 farmer-owned trucks, and approximately 100,000 farm tractors, there are 519 motorized Express Companies doing business in the states served by the Standard Oil Company (Indiana) and this number is growing day by day.

Automotive Industries for 1920 declares "Trucks are operating on railroad schedules, and have proved more dependable, on a time basis, than the steam roads have ever been. Their use to replace the freight car for certain classes of freight has proved a marked success."

The Smithsonian Institute, United States National Museum Bulletin 102, says, "In respect to prompt delivery of farm produce, whether to railways or directly to towns, the motor truck has an exceptionally useful opportunity."

It is these motor trucks, tractors and farmer-owned automobiles that are largely increasing gasoline consumption, particularly in the Middle West.

During the first four months of 1920, the production of gasoline increased 13½%, while during the same period, domestic consumption of gasoline increased 33½%. This excess of consumption over production has been a potent factor in the advance of gasoline prices, but the dominant underlying reason has been the increase in the cost of crude oil.

The service rendered by the Standard Oil Company (Indiana) lies in manufacturing and distributing to the tractor, the truck, and the automobile a dependable supply of gasoline and lubricating oils, and selling them at a fair price. The latest refinery methods are producing a continually increasing percentage of gasoline from each barrel of crude oil. While large-scale production and distribution assure maximum economy in this industry, the savings effected by the Standard Oil Company (Indiana) are utilized to hold down gasoline prices despite the rising tide of demand for petroleum products.

Best in World Says  
Mr. Abbott

W. Rufus Abbott,  
General manager of the Chi-

cago Telephone Company, whose organizing ability and precise methods have given him unusual prestige in the business world, is very definite in his comments on the YELLOW CAB.

"Chicago has the best taxicab system in the world," said Mr. Abbott, "and it is furnished by the YELLOW CAB COMPANY."

"This company gives better service at lower rates than any other city I have ever been in and now I understand it is making YELLOW CABS for all the cities in the Union. In other words it is the cause of a revolution in the taxicab business throughout America."

"YELLOW CABS are clean—the drivers are courteous and above all so reliable, that no man need hesitate to entrust his family to the care of the Company's employees."

"I remember how the Company started. It was in 1910. I was then an officer of the C. A. A. The Shaw Company made us a proposition to do away with the old-fashioned hack and substitute motor-propelled cars. I recall how eagerly we accepted."

"These same men are the owners and operators of the YELLOW CAB which has become internationally famous. The service they rendered the club was so excellent that it naturally became profitable and from it grew the present YELLOW CAB COMPANY. So I feel that I had something to do with the creation of this service, which has become one of Chicago's most essential institutions."

Mr. Abbott is not a stockholder in the YELLOW CAB COMPANY.

## GRAIN MARKETS HAVE BIG BREAK ON SELLING RUSH

BY CHARLES S. MICHAELS.

Liquidation was on in wheat, corn and oats from start to finish. At no time were prices above the previous day's finish, and the close was within a fraction of the low point. Wheat closed with net losses of 7 1/2¢, while corn was off 4 1/4¢, oats 1 1/2¢, rye 5 1/4¢, and barley 2 1/2¢.

There was a lack of aggressive buying. Heavy selling of wheat futures, credited to a leading eastern speculator, proved too much for the market to absorb in the face of a sharp decline in sterling exchange, and heavy rains in Argentina. Houses with seaboard connections were moderate buyers early, but later sellers of bids had to protect themselves.

While the wheat market is off sharply, sentiment is not nearly as bearish on corn and oats. Export business is constantly being put through, and there were liberal offers in the market for wheat and barley for which financial arrangements are apparently made. Country offerings remain small and milling demand is brisk, with red winter in the southwest selling 50¢ above Chicago. Canada offered wheat freely at 1¢, Chicago, and a cargo of 150,000 bu was worked to Toledo.

Corn at New Low. Offers of liberal amounts of cash corn to arrive, which forced a reduction of 1¢ in the bids, combined with excellent weather conditions for maturing crop, and the closing of five western corn products plants, ran the market into stop loss orders, and prices dropped rapidly. The best support came from holders of bids and from resting orders. Profit taking by pit shorts made a small rally toward the close. News was more bearish than of late. The forecast indicated continued mild weather in the corn belt, and the country reports were much more optimistic. Holders of old corn in the country are apparently liquidating. Chicago is regarded as the highest market in the west.

All deliveries of oats declined to a new low on the crop, and closed within a fraction of the bottom. Liquidation was on, and the decline easily attained in view of the break in other grains. Cash houses bought September and sold December at 2 1/2¢ difference. Houses with seaboard connections were good buyers of September rye, but the break in other grains carried prices off sharply. No. 2 on track brought 50¢ over September. Barley declined 1¢, with a slow demand.

Provisions Are Irregular.

Provisions showed a strong undertone, and, while the close was on a moderate reaction from the top, net gains were 30¢ for pork, 17 1/2¢ higher for lard, and 10¢ higher for short ribs. Fresh beef prices advanced 1¢ and cured hog product was held at higher figures. Prices follow:

## CASH GRAIN NEWS

Shipping sales of cash grain at Chicago yesterday were 135,000 bu wheat, 135,000 bu corn and 85,000 bu oats. There were 100,000 bu rye sold to the seaboard for export.

A sharp break in sterling exchange checked export business in wheat, but there was a persistent demand with a liberal amount sold to Belgium in addition to 200,000 bu to the Gulf late Monday for first half of January loading. October at the Gulf was quoted at 28¢ over December.

Southwestern millers were after red wheat at St. Louis and Kansas City, and prices in those markets showed 10¢ to 15¢ above Chicago, the highest premium on the crop. At Chicago, premiums on red were 15¢ to 20¢ lower, with No. 1 at 90¢ to 10¢ over December, while No. 1 hard was 10¢ to 15¢ over 10¢ over. St. Louis was 10¢ to 15¢ over 10¢, and Omaha 10¢ to 15¢ over 10¢, in the latter market refused to follow the decline.

Demand for cash corn was only fair, and the basis at Chicago was reduced 4¢ to 10¢ over September for No. 1 mixed, and 5¢ over for yellow with No. 1 mixed 10¢ to 15¢, and No. 1 yellow 10¢ to 15¢ at the last. Sample values were 40¢ to 45¢ lower here, 30¢ to 40¢ at St. Louis, 20¢ to 30¢ at Kansas City, 40¢ to 50¢ at Milwaukee and Omaha and 10¢ to 20¢ at Peoria. Cash oats at Chicago declined 10¢ to 15¢ lower, with outside markets 10¢ to 15¢ lower.

THE REAL VALUES

Behind A Security

are the worth of the property financed, its earning power, its management, its dividend record, and the nature of the business.

Whether the security is in the form of bonds, notes, mortgages, or preferred stocks is not so important. SUBSTANCE is of more value than FORM.

This Company specializes in Preferred Stocks with substantial values behind them—the kind you can safely lay away. They have the earning power to assure dividends during lean years as well as prosperous ones. They pay 7% or better.

## CARSON PIRIE SCOTT &amp; CO

## This is the Week of the Fabric Occasion of Fall 1920

With it comes authoritative word of all that is new and certain of vogue in fabrics and the fabric mode. Laces and garnitures that harmonize and complement this mode, too, are introduced. So that all plans for the making of the fall and winter wardrobe may be carried to a most successful conclusion. Certain groups typical of all that is most delightful in the new fabrics are featured here—

### Soft Satin Charmeuse in Black and Colors, \$7.50 Yard

This is an excellent weave of satin charmeuse. It is of that quality which falls into soft and supple folds necessary to interpret successfully this season's silhouette. 40 inches wide. \$7.50 yard.

#### Chiffon Metal Fabrics

The sheer lightsome chiffon acts as colorful background for striking metal motifs both in silver and in gold. There are many beautiful and exclusive designs introduced at this Fabric Occasion. 40 inches wide, priced \$22.50 yard.

### The Newest of Worsteds Suitings in Checks and Plaids, \$7.50 Yard

Color combinations out-of-the-ordinary that make it possible to achieve really unusual suits and separate skirts may be chosen from this assortment. In the 54-inch width.

#### Chudda Cloth for Frocks

This fabric may be had in the new shades of tan and brown, old blue, navy blue, plum, green, taupe. 42-inch width. In weave and texture it is delightfully adaptable to this season's frocks. Priced at \$3.50 yard.

### Imported Colored Net Flouncings, of Exquisite Patterns, \$9.95 Yard

That this is to be a season of laces one has but to see these assortments to know. These imported colored flouncings may be matched in bands at \$4.95 yard. Black Chantilly, Margot and embroidered net flouncings that are used this season over black or brilliant colors, may be had at \$4.95, \$6.95 and \$8.95 yard.

Many Other Groupings of the New in Fabrics and Garnitures Have First Presentation During This Fabric Occasion of Fall 1920.

### Soft Silk Crepe Is Chosen for Women's and Misses' Frocks To Assure Their Certain Favor

In the silk crepe frocks here one sees how perfectly this lovely fabric lends itself to the season's preferred silhouette.

Always, too, there are charming little touches introduced with the deft skill which is the secret of the success of such frocks as these. For example—

#### Venetian Patterned Lace on Canton Crepe Frocks at \$145

From the Czechoslovakian countries come the lovely colors printed into the bodice—a bit "Moyen-age" in line. The vestee, collar and cuffs of rich-toned lace complete a frock decidedly out-of-the-usual. Sketched at the left.

### Misses' Crepe Meteor Frocks, Embroidered, \$115

Simple in line, delightfully youthful in style is this lovely frock in navy blue or brown. Sketched at the right. The hand-embroidery in soft harmonizing tones is in an unusually graceful pattern.

Ribbons are a charming new trimming note on women's velvet frocks at \$150.

Gray taffeta and navy blue or brown crepe meteor are combined in smart frocks for misses, \$55.

Fourth Floor, North and South.

### Skirts in Plaids and Checks

Crepe de Chine Blouses to  
Accompany Them

So expertly are these skirts and blouses chosen to harmonize with one another that selection here will meet with unusual satisfaction.

There is seemingly no end to the delightfully varied ways of plaids, checks and pleats in these skirts. And each blouse has smartness achieved by superior quality, exceedingly careful workmanship and well-chosen style.

The skirts and blouses pictured can merely suggest the widely varied assortments found here now and the decidedly interesting pricing.

The Skirt at the Right, \$30; Misses' Blouse, \$15.  
The Skirt in the Center, \$37.50; Blouse, \$8.50.  
The Skirt at the Left, \$32.50; Blouse, \$10.

Fourth Floor, East and North.
